# About Us

Established in 1986 as a sole proprietorship, Paklite is a leading Company in the field of manufacturing LED Lighting Fixtures & Conventional Magnetic Ballasts in Pakistan. With over a 35 years of experience, we have strengthened our leadership position in the LED Lighting market with easy solutions for across all segments like, office, retail, industry and public.

“ We strive to make LED lighting technology more sustainable, through innovative quality, acquired by deep understanding of lighting designs through cutting-edge technology available in the innovative laboratories in our premises to create sustainable products in the environment of Pakistan.

Paklite holds a solid reputation for delivering top quality LED Bulbs, Down Lights, Batten Lights & all other types of commonly used luminaries. We are committed to continue to be the leader in the retail and wholesale market for the highest quality and best value products in Pakistan & Overseas. ”

## LED BULB

These LED Bulbs are recognized as a solution for the most commercial, industrial, retail and special applications like advertisement and merchandising. In addition to offer excellent energy efficiency and long life, PakLite LED Bulbs are designed to reduce lighting costs without compromise to the visual quality of indoor lighting environments.

### FEATURES

- Internal constant - current driver
- Constant Flow, Quick Start
- Surge Protection for Voltage Fluctuation
- Low Heat Dissipation Design
- High Shock /Vibration resistant
- Easy to install, Dust Proof
- Prevent Electricity Leakage
- 3X More Aluminum for Heat Dissipation
- Mercury free and don't emit UV
- Double E core transformer

# LED PLATINUM DOWNLIGHT

With more than 50000 hrs lifespan, easy to install and low-cost maintenance design, PakLite introduces the new standard range of LED Platinum Downlights that transforms ambient lighting into an exquisite balance of refined appearance with superior efficiency.

## FEATURES

- Constant flow, Quick start
- 50000 hours Lifespan
- Easy to install, dustproof
- Prevents electricity leakage
- Energy Efficient
- Best build quality

SIZE	POWER	SIZE	POWER
3"	7W	6"	18W
3"	9W	6"	18W
3"	12W		

# LED ECO DOWNLIGHT

A highly performance and energy-efficient ECO downlights with more than 50000 hrs of lifespan, easy to install and low-cost maintenance design. PakLite LED ECO Downlights deliver beautiful lighting for any room in your home whilst also being suitable in any commercial settings.

## FEATURES

- Constant Flow, Quick start
- 50000 Hours Lifespan
- Easy To Install, Dustproof
- Prevents Electricity Leakage
- Energy Efficient
- Best Build Quality
- Multi-Colored

# LED NEON DOWNLIGHT

PakLite LED Neon Downlight is a flexible and highly durable lighting solution that is designed to meet the demands of more arduous environments such as indoor or walking areas. Other applications include shop, houses or for simple indoor lighting solutions.

## FEATURES

- Constant flow, Quickstart
- 50000 hours Lifespan
- Easy to install, dustproof
- Prevents electricity leakage
- Energy Efficient
- Best build quality
- Multi-Colored

SIZE	POWER
3"	7W

# LED COB DOWNLIGHT

PakLite LED COB Downlights are a range of high quality designed to reduce lighting costs without compromise to the visual quality of indoor lighting environments. The downlights saturates your interior space with a strong and uniform glow. Its sophisticated recessed design is perfect as a new downlight installation or a lighting replacement.

## FEATURES

- External constant – current driver
- Constant flow, Quickstart
- 50000 hours Lifespan
- Complete aluminum body design
- Driver outside fixture
- High Shock / Vibration resistant
- Easy to install, dustproof
- Prevents electricity leakage

4.5"	15W		

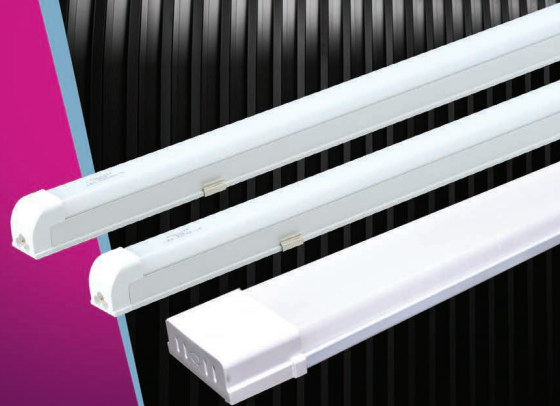

# LED STRIP LIGHT

Add an extensive array of lights of any environment at the flick of a switch with PakLite's T8 LED Strip Light. With easy installation, minimal space requirement and 50000 hours life span LED strip light is made by special different view angles mixing lighting design with excellent heat dissipation, making it the perfect choice for your ambiance.

## FEATURES

- Excellent replacement for old T8 fluorescent Lights
- Designed to manage heat dissipation
- Conventional lighting fixture with modern era design
- 50000 hours Lifespan
- Light to light connecting facility
- High efficiency constant current driver
- Brighter with less degradation than T8 fluorescent lights

4FT	18W	BATTEN	36W

# LED TUBE ROD

PakLite LED Tube Rod is the ideal uplampping solution for a wide range of general lighting applications. It offer super energy savings over a lifetime that's twice as long as fluorescent alternatives and does not have any ultraviolet or infrared radiation. It's easy to install, dissipates very low heat and its environment friendly.

## FEATURES

- Direct replacement for any traditional fluorescent T8 tube
- High power driver efficiency > 80%
- Non-UV or IR radiation
- Low Heat Dissipation Design
- Easy to install, Dust Proof
- Energy saving and environment friendly

MODEL	POWER	MODEL	POWER

ALU-4FT	18W		

# LED SMART LIGHT

LED Smart Lights are designed to have a super dynamic shape with very low maintenance costs. To make these lights gleaming white powder paint, de-greased and de-rusted steel sheets are used. The upper case is screw less and wiring is equipped with flameproof sleeves.

## FEATURES

- Super Dynamic Shape
- Low maintenance cost
- Gleaming white powder paint
- De-greased and de-rusted mild steel sheet
- Lining Designed, screwless upper case diffuser
- Multiple quality checks to ensure customer satisfaction
- Wiring equipped with flameproof sleeves

2FT	18W	4FT	36W

# LED PANEL LIGHT

PakLite LED Panel Light transforms ambient lighting into an exquisite balance of refined appearance and superior efficiency. When illuminated, the panels deliver exceptional uniform light, to all over the area. its flicker free technology provides super dynamic balanced light resulting a moden look and economic lighting source. It saves energy up to 80% with an incredible lifespan of more than 5 years.

## FEATURES

- Energy-saving about 80%Efficient
- Long-life span more than 5 years
- 50000 hours life span
- Soft and wide light emittance
- No ultraviolet or infrared rays
- Isolated power supply without any safety problem

MODEL	POWER	MODEL	POWER
2'x2'	36W	2'x2'	48W

# LED INDUSTRIAL LIGHT

PakLite LED Industrial Light are designed for factories, warehouses, retailers, mega malls and specially textile units. The unique optical design focuses light downward to where it is needed, resulting improved efficiency and long life expectancy.

## FEATURES

- Low maintenance cost, as reflector is easy to remove and install again
- Light enhancements by tilting reflector to focus on particular operation
- Thick body and strong grips result in tough metal structure
- Stainless steel body is also available

MODEL	POWER	MODEL	POWER
4FT	18W	4FT	36W

# LED FLOOD LIGHTS

Paklite Flood Light is an extremely flexible and versatile LED solution that ensure an excellent quality of light, targeted where is required, at the same time allows to decrease the hot spot and improve the light distribution onto the higher position for building facade.

## FEATURES

- Provides even and bright illumination
- Aluminum alloy shell for better heat dissipation
- 50000 hrs lifespan
- Ingress Protection Grade IP65
- Ultra energy efficient up to 80%

MODEL	POWER	MODEL	POWER
PS SMD	50W	P.FD	80W
SMD	100W	P.FD	100W

# LED HIGHWAY LIGHT

PakLite LED Highway lights are built with premium quality material that is aluminum body for better heat dissipation results in better lifespan of the LED light source. It is IP 65 grade which means it is protected against dust and water which makes it suitable for outdoor use. It is very energy efficient that can save up to 80% energy comparing to traditional lighting fixtures.

## FEATURES

- All aluminum housing for better heat dissipating, extending the life span of lense lighting source
- Free of dust and water, suitable for outdoor installations
- Protection Grade IP 65
- Save 80% more energy compared to the traditional lighting fixtures
